

CASE ONE® B CHEMICAL PROTECTION SUIT

The gas-tight, single use suit Case One b protects firemen and chemical workers from dangerous and toxic chemicals in liquid or gaseous forms. The suit is designed for Self-Contained Breathing Apparatus (SCBA) worn outside the suit. Tightly attached gloves and boot socks with drip edge provide the wearer with the greatest protection. Back entrance with covered (held in place with Velcro), and gas-tight zip. The ergonomically designed butyl cuff contributes to a higher degree of comfort and safety for the wearer.

Full protection suit details:

- made with DuPont™ Tychem® F; knee- and elbow area are strengthened
- with gloves; different types and sizes of gloves
- boot socks with drip edge or S3 sole
- ergonomically butyl cuff
- sizes S-XXL
- DEKRA Standard, EN 1149-5:2008
